Skoglund Meats only accepts boneless deer trim. Minimum of 15# deer trim per product.
An additional $0.80/pound for Grinding and Packaging is charged on all boneless trim.
Price per pound includes the cost of pork and all other ingredients.

Figuring product cost: Multiply the boneless trim weight by the Multiplier. This determines precooked product weight. Multiply that weight by Price/Pound.

Figuring finished weight: Multiply precooked weight by % Shrink. Subtract that amount from the precooked weight. *All shrink percentages are estimates and may vary from batch to batch.
